Hague, July 30. The first Term of Payment of the Arrears due to his Prussian Majesty expiring the first of August next, the States General have in the most pressing Terms, exhorted a new the States of Guelderland, on whom it lies to satisfy this first Payment, and who, by reason of their Situation, were the most urgent for concluding the Convention made with his said Majesty for those Arrears, to fail not in the Payment, seeing the unhappy Consequences that such Failure may occasion, as well to the State in General, as to them in particular; and for the taking away of all Differences that may arise in Relation to the Subdivision of the Quota's of the three Quarters which compose that Province, their High Mightinesses have given fresh Orders for the prompt Adjustment of them; as also, for hastening the Repair of the Fortifications, and the other Regiments in the said Province, for the better encouraging the said Payment. In the mean time frequent Conferences are held between the Envoy of the King of Prussia, and the Deputies Committee for the said Arrears. Their High Mightinesses doing all they are able for the Execution of the said Convention.

The Council of State have communicated to their High Mightinesses, a Letter concerning their Resolution, upon the Subject of the Companies of Swiss and Grisons that are to be disbanded, and have at the same time demanded that the States General assign a Fund, out of which those Companies may be paid their Arrears, as also for some Months of their March home.

The Canton of Berne has caused strong Remonstrances to be made here by their Deputies, against the Project agreed upon, of incorporating the Soldiers that are Subjects and Burghers of Berne into other Swiss and Grison Companies, declaring that that Canton will never suffer that those Men shall serve in Companies belonging to Cantons that are in all Respects inferior to that of Berne.

They talk at present of some Reform in the Cavalry of this State, namely, that the States Majors of some Regiments, or even intire Squadrons, shall be disbanded, and those Regiments that are kept on foot shall be augmented with one Company. But that cannot fail to increase the Dissension that reigns among the Provinces upon the Subject of disbanding of Troops; and 'tis suppos'd the Province of Guelderland will absolutely oppose the breaking the Squadron of Guards, which is newly resolv'd of.

'Tis a great Trouble to their High Mightinesses to see the little Progress their Minister at Brussels makes in the Negotiations with the Marquis de Prié, the latter not willing to depart, without the previous Consent of his Imperial Majesty, from the new Convention approv'd by the Court of Vienna, and insinuates also that he sees no other Means of satisfying their High Mightinesses the Arrears of 50000 Crowns grown due since the Signing of the Barrier-Treaty; the rather in that nothing can be expected from the States of Brabant and Flanders towards supplying it; and that the Funds are so over-charg'd that nothing can be assign'd upon them. But we flatter ourselves, that the Marquis de Prié will come hither himself very suddenly, and that then by the Convenience of communicating and treating immediately with him, who has always shewn a good Disposition for accommodating and removing Difficulties, this troublesome Negotiation may be the better advanc'd, especially since the Discussion of it depends very much upon his Administration.

From the Amst. Courant, dated July 31.
